

EVOLVING PROBLEMS, NEW SOLUTIONS

Australasian Society of Diagnostic Genomics (ASDG) Conference
31st March – 2nd April 2017 | Crown Convention Centre, Melbourne

You are invited to attend the Australasian Society of Diagnostic Genomics – Interim Scientific Meeting

31st March – 2nd April 2017, Crown Convention Centre, Melbourne

The meeting will be held at Crown Convention Centre, located on the popular Southbank. We hope the meeting will be engaging, interesting, and inclusive to all in the expansive field of Diagnostic Genomics.

The theme for the meeting is ‘Evolving problems, new solutions’. We will look at how new technologies are being applied to existing genetic problems – which continue to evolve as we get more information from new technologies.

We look forward to you joining us in Melbourne.

KEYNOTE SPEAKERS

Dominic J. McMullan
Consultant Registered
Clinical Scientist at
West Midlands
Regional Genetics
Laboratories,
Birmingham
